SOFT

Questa superficie dall'aspetto opaco e morbido, assai piacevole al tatto, si ottiene attraverso l'azione incisiva di spazzole diamantate di diversa grana.

This matt and soft surface, which is so pleasant to touch, is obtained using diamond brushes with different grain sizes.

Cette surface à l'aspect mat et doux, très agréable au toucher, est le résultat de l'action vigoureuse de meules diamantées de diverses granulométries.

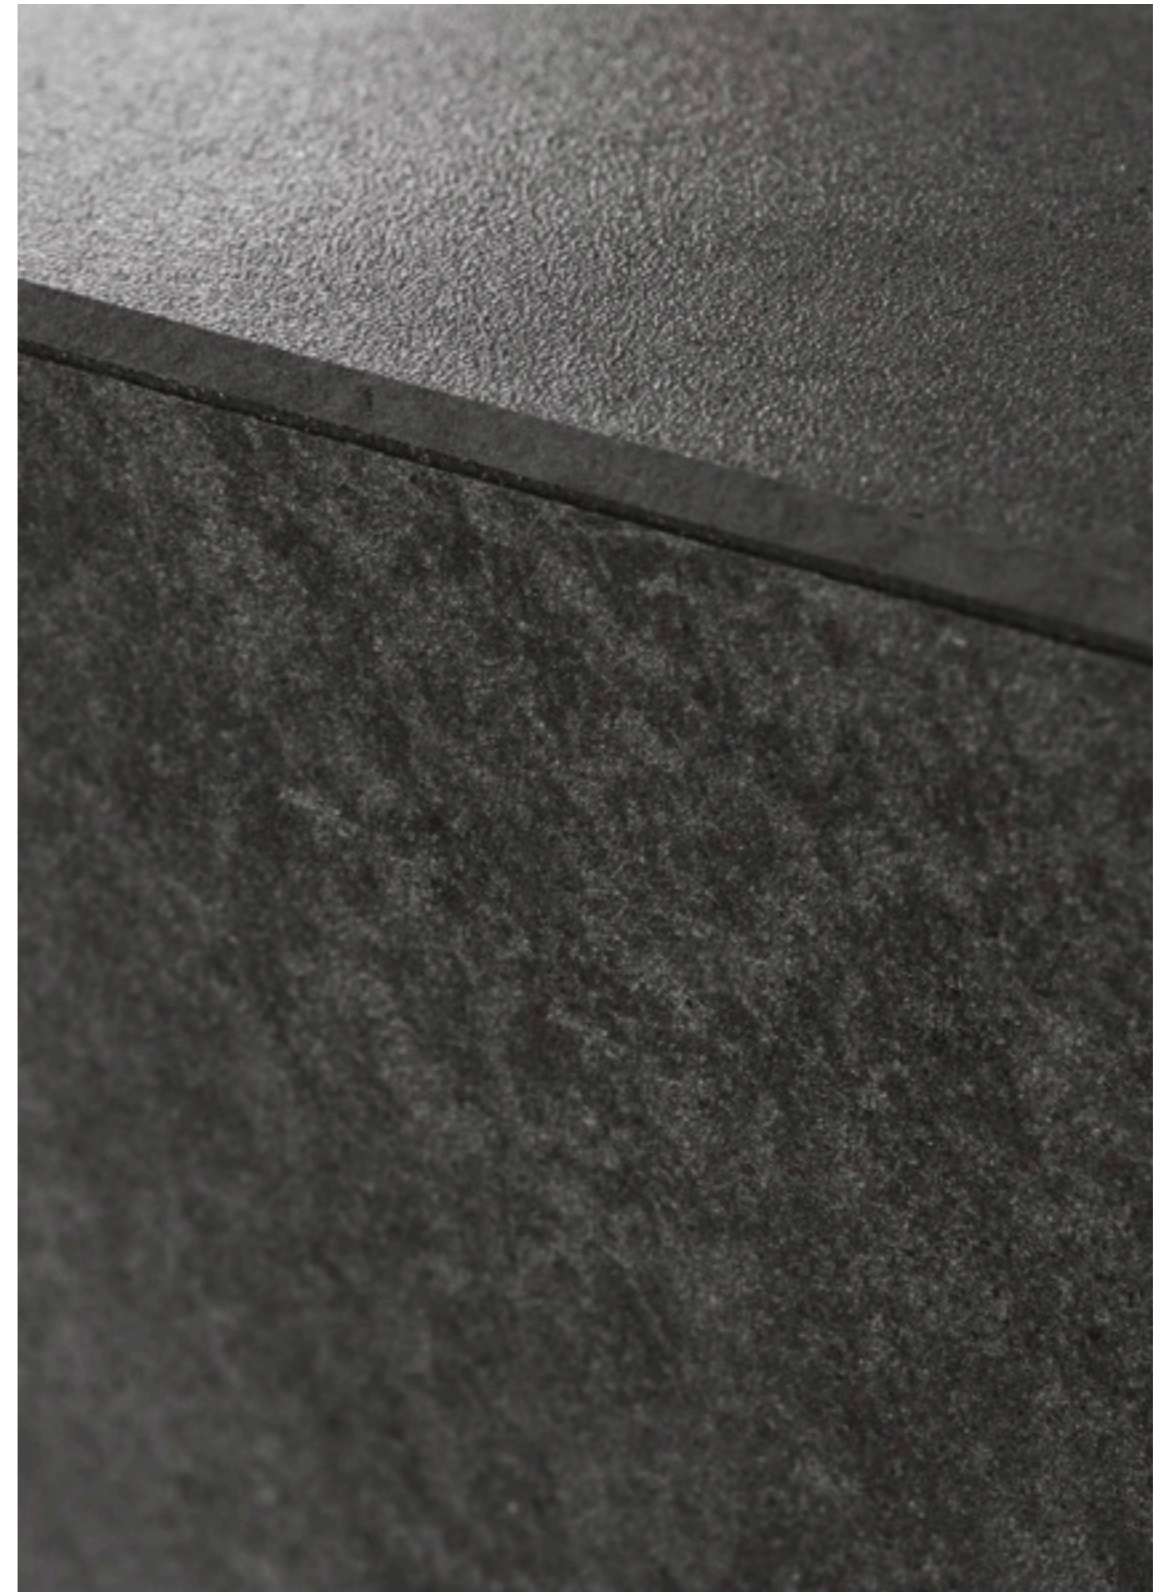

Diese Matt und weich wirkende Oberfläche fühlt sich angenehm an und wird durch die Kerbwirkung von Diamantbürsten mit unterschiedlicher Körnung erzeugt.
