DECORATORI®
BASSANESI
ITALIA ■ 1988

▮ Abbiamo lavorato alla creazione di collezioni uniche per qualità e bellezza, collaborando con i nomi più interessanti del design internazionale, guidati però dalla precisa volontà di proporre un catalogo basato non solo sul singolo prodotto, ma anche sulle relazioni tra prodotti diversi. Formati, colori e tipologie di ogni singola collezione, di seguito riportati, fanno parte di questo studio progettuale e consentono risposte articolate alle necessità dei committenti. Il tema della decorazione è stato sviluppato in modo fortemente coerente ai linguaggi dell'interior contemporaneo.

▮ In working towards the creation of these unique, high-quality and beautiful collections, collaborating with the most interesting designers on the international scene, we were guided by our desire to present a catalogue that would not be based on one single product but rather on the relationships between different products. Formats, colours and types of every collection listed in the following pages are all part of this design project and make it possible for us to provide the ideal solutions to our clients' needs. The theme of the decor has been developed in harmony with the visual language of contemporary interiors.

Evolution

II Gres porcellanato smaltato, rettificato
 EN Porcelain gres Glazed, rectified

II Spessore EN Thickness:
 6,5 mm

II Fuga minima consigliata
